## INTRODUCTION

I'm a dynamic, creative and eager to learn person. I have a good environment to develop myself while studying in Quoc Hoc high school for the gifted. Willing to change technology, learn new programming languages to meet company requirements. Besides, after 5 years of military service, I have trained myself to be highly disciplined and dedicated to my work. With the desire to contribute a part of my value to the team and the company community is the motivation for me to develop and improve myself every day.

- Short-term goals (6 months - 1 year): Improve professional knowledge, English level, be able to use the skills and knowledge learned to develop the company's products.
- Long-term goals (3 - 5 years): Become an excellent programmer, in the core staff of the company.

## EDUCATION

### Informatic specialized class

**QUOC HOC HUE HIGH SCHOOL FOR THE GIFTED**  
9/2014 - 8/2017

Graduated with honors

### Commander of the land force
